

**COMPLETE  
EYE CARE**

COMPLETE EYE CARE, P.C.

JOHN A. WATERS, M.D.

## **AFTER SURGERY INSTRUCTIONS**

Continue all of your Thera Tears products on your “Before Surgery” instruction sheet and add the following:

Tobradex: Use **1 drop** every **4 hours** to the surgery eye(s) while awake. Use these drops for **5 days** starting when you get home from surgery.

**\*\*\*\*ALWAYS WAIT 3 MINUTES BETWEEN DROPS\*\*\*\***

If you experience any mild discomfort that can't be relieved with the lubricating drops you are able to take **Extra Strength Tylenol or Ibuprofen** (whatever you would normally take as a pain reliever). Take **600mg** by mouth every 8 hours as needed.

If you are start experiencing any significant discomfort or pain, call Complete Eye Care at 810-732-2272.
